## Care Sheet

### Japanese Garden Juniper - Juniperus procumbens

Origin: Japan

#### General info

Hardy low growing evergreen

#### Over Wintering

Keep outdoors during winter months so that they can experience a dormancy or rest period. During this period, your bonsai should be protected from drying winds and extreme cold conditions.

This can be achieved by utilizing cold frames, window wells, enclosed unheated rooms, shed or garage with windows, or mulched beds. The bonsai should be checked regularly for water when temps are above freezing.

#### Lighting

Half day to full sun

#### Watering

When soil surface is dry to touch. When you water make sure you completely wet all the soil in the pot every time you water. Don't pour in a little water every day

#### Feeding

Spring thru early fall. You can use house plant or nursery fertilizers. Follow the label for rates and application times.

#### Training

Pinching and wiring

#### Repotting

Every 1-2 years with 20% root removal
