## Care Sheet Bald Cypress - *Taxodium distichum*

Origin: USA

### General info

Deciduous tree zone 4-9. Can be grow indoor or outdoor best kept outside

### Over Wintering

Indoor for winter tree should be moved into cool area to allow to go dormant. If Keep outdoors during winter months so that they can experience a dormancy or rest period. During this period, your bonsai should be protected from drying winds and extreme cold conditions.

This can be achieved by utilizing cold frames, window wells, enclosed unheated rooms, shed or garage with windows, or mulched beds. The bonsai should be checked regularly for water when temps are above freezing.

### Lighting

Indoor half to full day sun. Outdoor partial to full sun

### Watering

Keep wet, when dormant keep moist. When you water make sure you completely wet all the soil in the pot every time you water. Don't pour in a little water every day

### Feeding

Spring thru fall. You can use house plant or nursery fertilizers. Follow the label for rates and application times.

### Training

Hard pruning in spring before growth starts continue pinching throughout year

### Repotting

Repot and root pruning 25% root removal in early spring when tree is dormant
